

BRING WELLNESS TO LIFE.

**NORTHWEST MICHIGAN
HEALTH SERVICES INC**

WELCOME TO NMHSI-MAPS HEALTH CENTER

Northwest Michigan Health Services Inc (NMHSI) proudly partners with the Manistee Area Public Schools (MAPS) to provide convenient and affordable onsite primary care and behavioral health services to students ages 5-21 at the NMHSI-MAPS Health Center.

At NMHSI, we bring a positive approach to health care, doing whatever it takes to overcome barriers to health care and finding every opportunity to bring wellness to life! Health insurance or not, everyone is welcome here.

WHO CAN BE SEEN?

- MAPS students age 5-21 can be seen for a variety of primary care and behavioral health services. Students with an Individualized Education Program (IEP) can be seen through age 26.
- The NMHSI-MAPS Health Center can be a child's sole primary care provider, or can be supplemental care, as needed. For consistency in care, copies of visits will be sent to child's primary care provider.
- If your student is too sick to attend school, you can still schedule an appointment and bring your student to the NMHSI-MAPS Health Center for services.

WHERE IS THE NMHSI-MAPS Health Center LOCATED?

- The NMHSI-MAPS Health Center is located within the Manistee Middle & High School – **525 12th Street**.
- NMHSI has another health center in Manistee – **148 W. Parkdale**. Students and/or their families are able to schedule primary care appointments here too!

WHEN CAN APPOINTMENTS BE SCHEDULED?

- Students or parents can schedule appointments during or after school. The NMHSI-MAPS Health Center is also open during school holidays and throughout the summer, with possible adjustments in hours.

WHAT IS THE COST?

As a medical provider, the NMHSI-MAPS Health Center bills health insurance for patient services. Our program accepts all insurance and all types of Medicaid. We also offer insurance enrollment support as well as a sliding fee scale for families with no insurance, large spend downs or high-deductible plans. Insurance or not, everyone is welcome here!

HOW WILL PARENTS BE INVOLVED?

- Parents can schedule appointments and give permission/consent for appointments scheduled by students
- Parents can attend the appointment, or be contacted before/during/after the visit with details and recommendations.
- Parents provide insurance information and submit payment, if necessary. Parents can also receive support in applying for insurance, or, if eligible, can pay based on a sliding fee scale.

CAN STUDENTS SCHEDULE CONFIDENTIAL SERVICES?

Per Michigan and/or Federal law, students age 14+ may request confidential services without parental consent or notification. Confidential services include the following:

- Mental Health Counseling Service (12 visits or 4 consecutive months)
- Sexually transmitted infection testing, diagnosing and treatment
- Substance abuse counseling
- Family planning services of education, pregnancy testing and prenatal care. Per Michigan law, the NMHSI-MAPS Health Center cannot prescribe or distribute birth control on school property. It also does not allow the discussion of or referral for abortion services. Patients may be referred for birth control to their primary care provider or other community resources.
- Test results will be kept confidential and we will do our best to ensure the billing and fee collection processes do not breach patient confidentiality.
